June 2026

The Brief

AtliQ Media is producing a 1-hour fact-based show on the 2026 Tamil Nadu Assembly Election results

01

**No debates. No political commentary.
Only ECI data.**

02

**234 constituencies. 4,000+
candidates. One clear story.**

03

**Our job: find the most interesting
numbers and make them TV-ready**

Our Approach

3 research questions. 1 connected story.
Sourced entirely from ECI data.

01

Q2: Which seats
changed hands and
who gained the most?

02

Q3: Where did TVK's
votes actually come
from?

03

Q6: How dominant
were the winners in
each constituency?

The Story Arc

Three acts. One verdict.

01

Act 1 - The Map Flipped: 163 of 234 seats changed hands

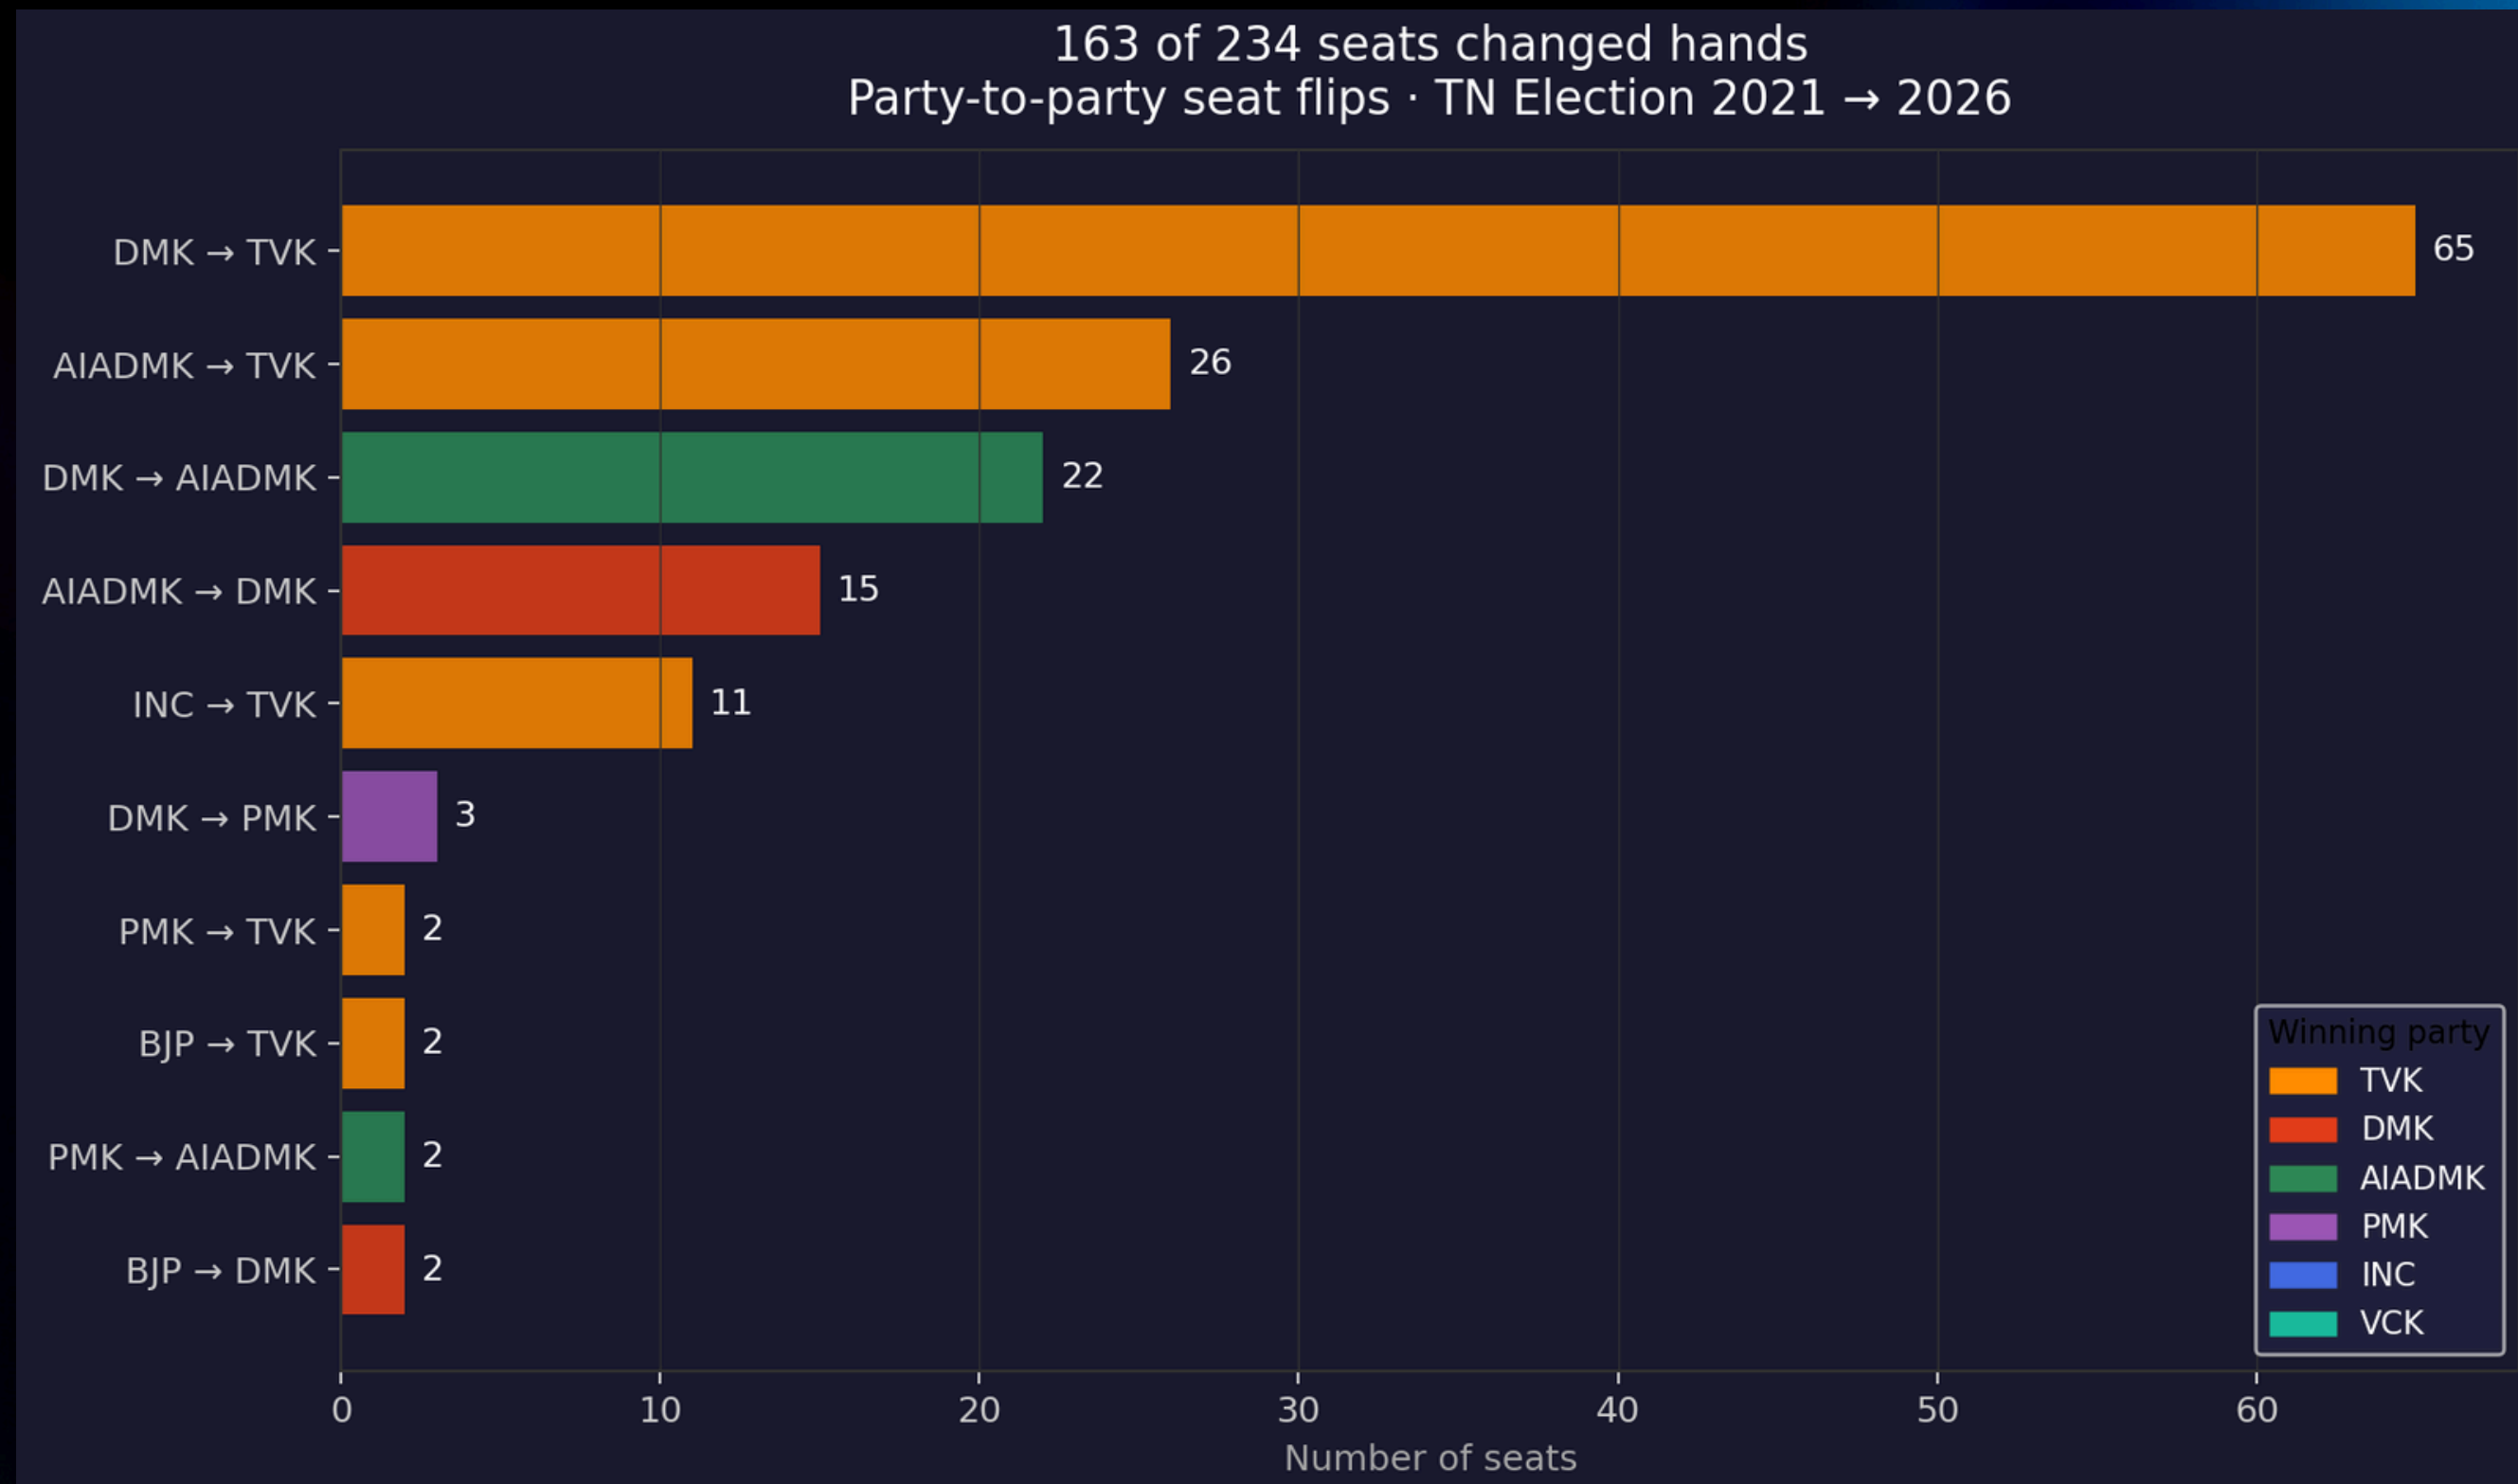

02

Act 2 - Follow the Votes: TVK pulled from both DMK and AIADMK simultaneously

03

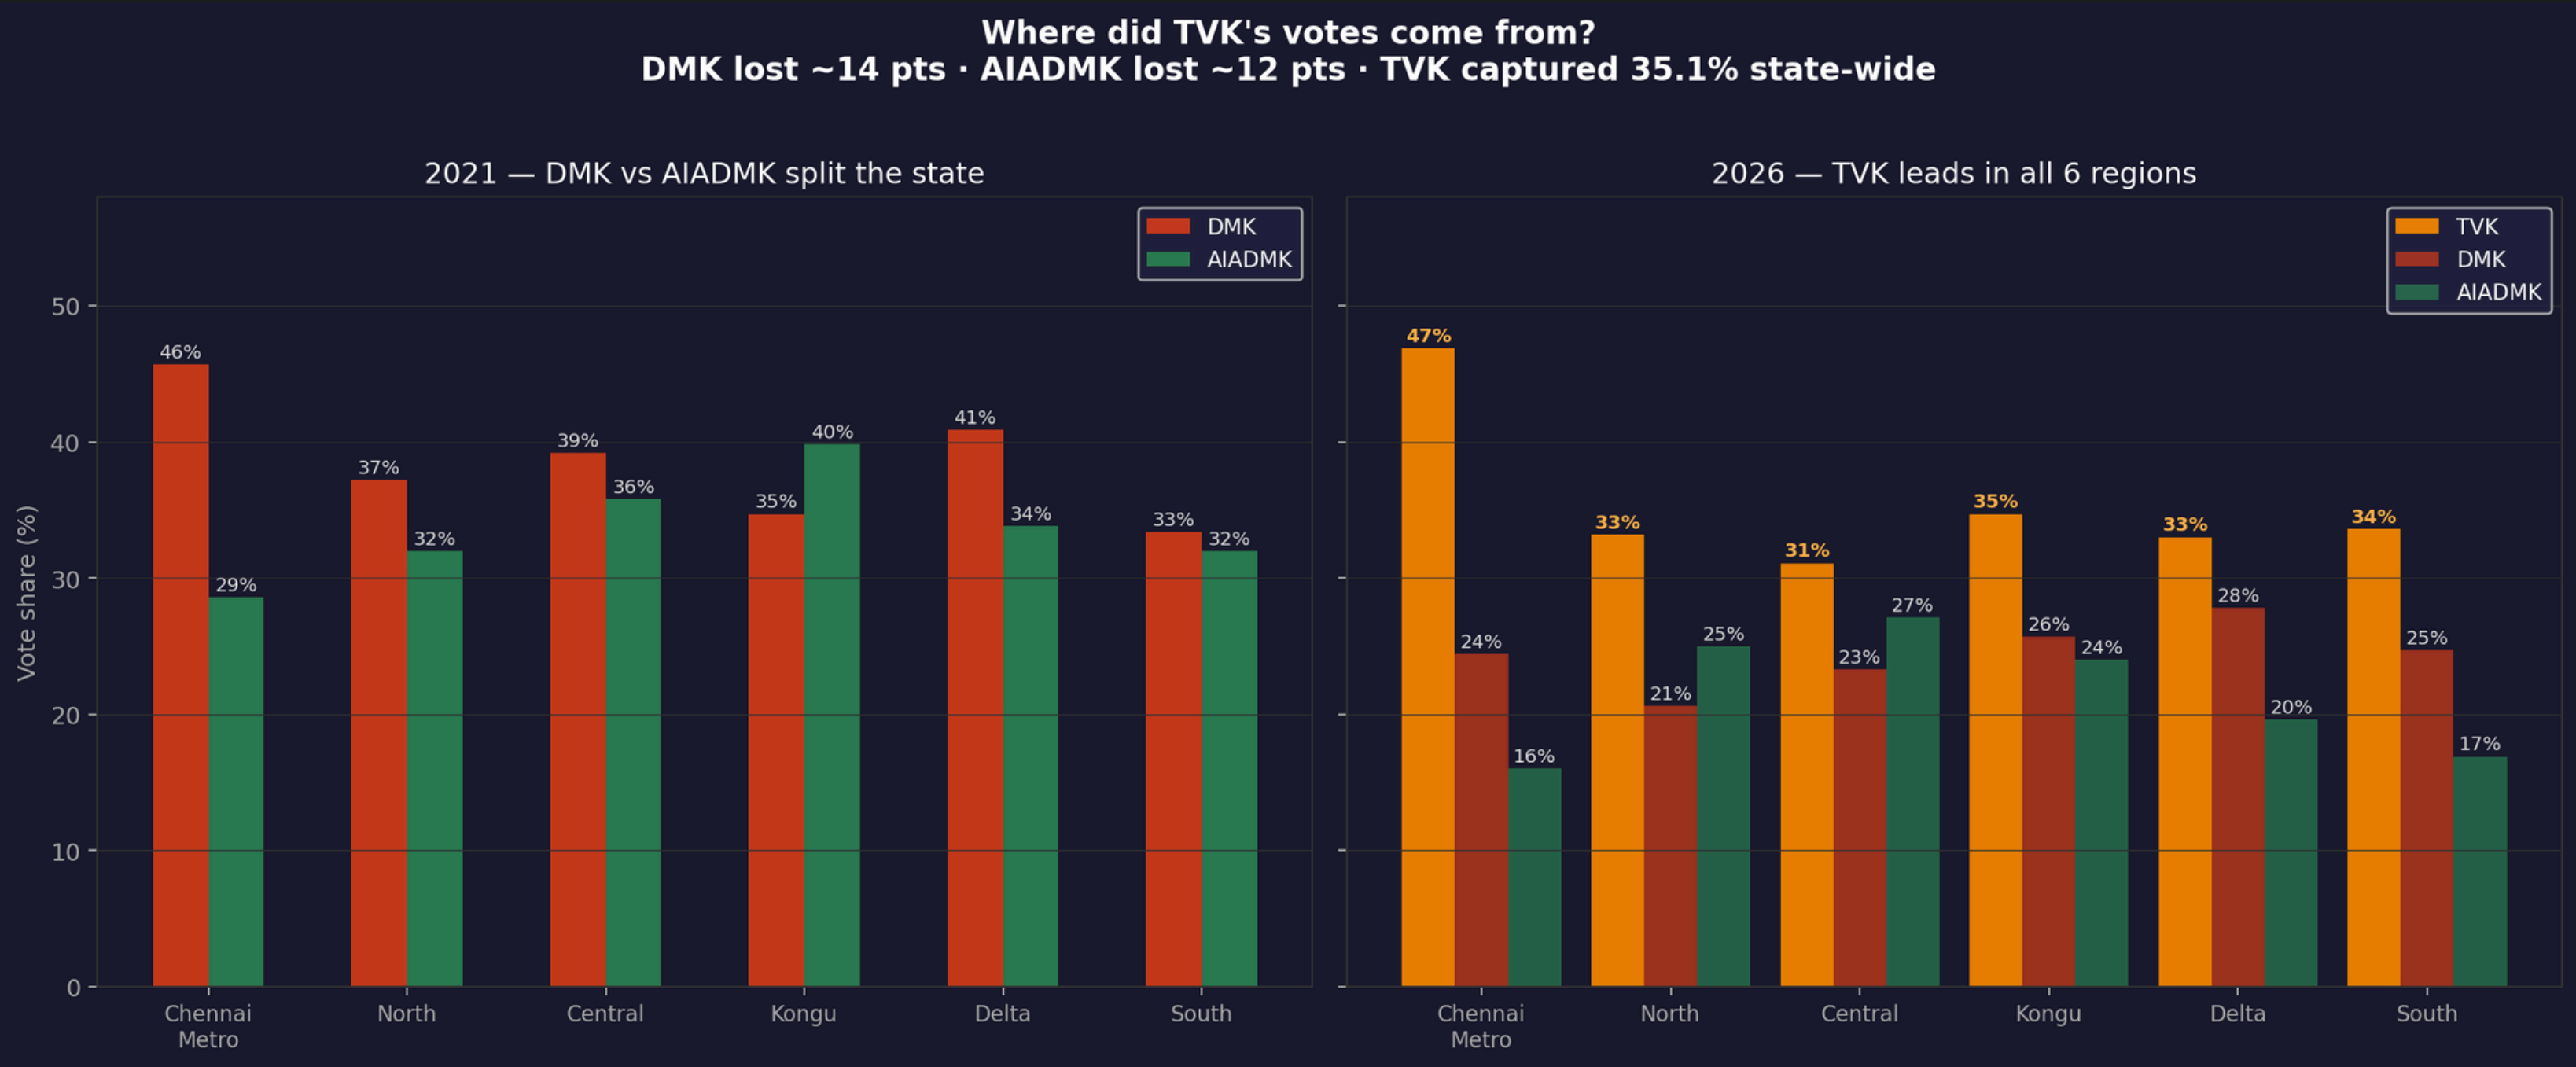

Act 3 - Thin Margins: A landslide won without majorities in most seats

Act 1: The Map Flipped

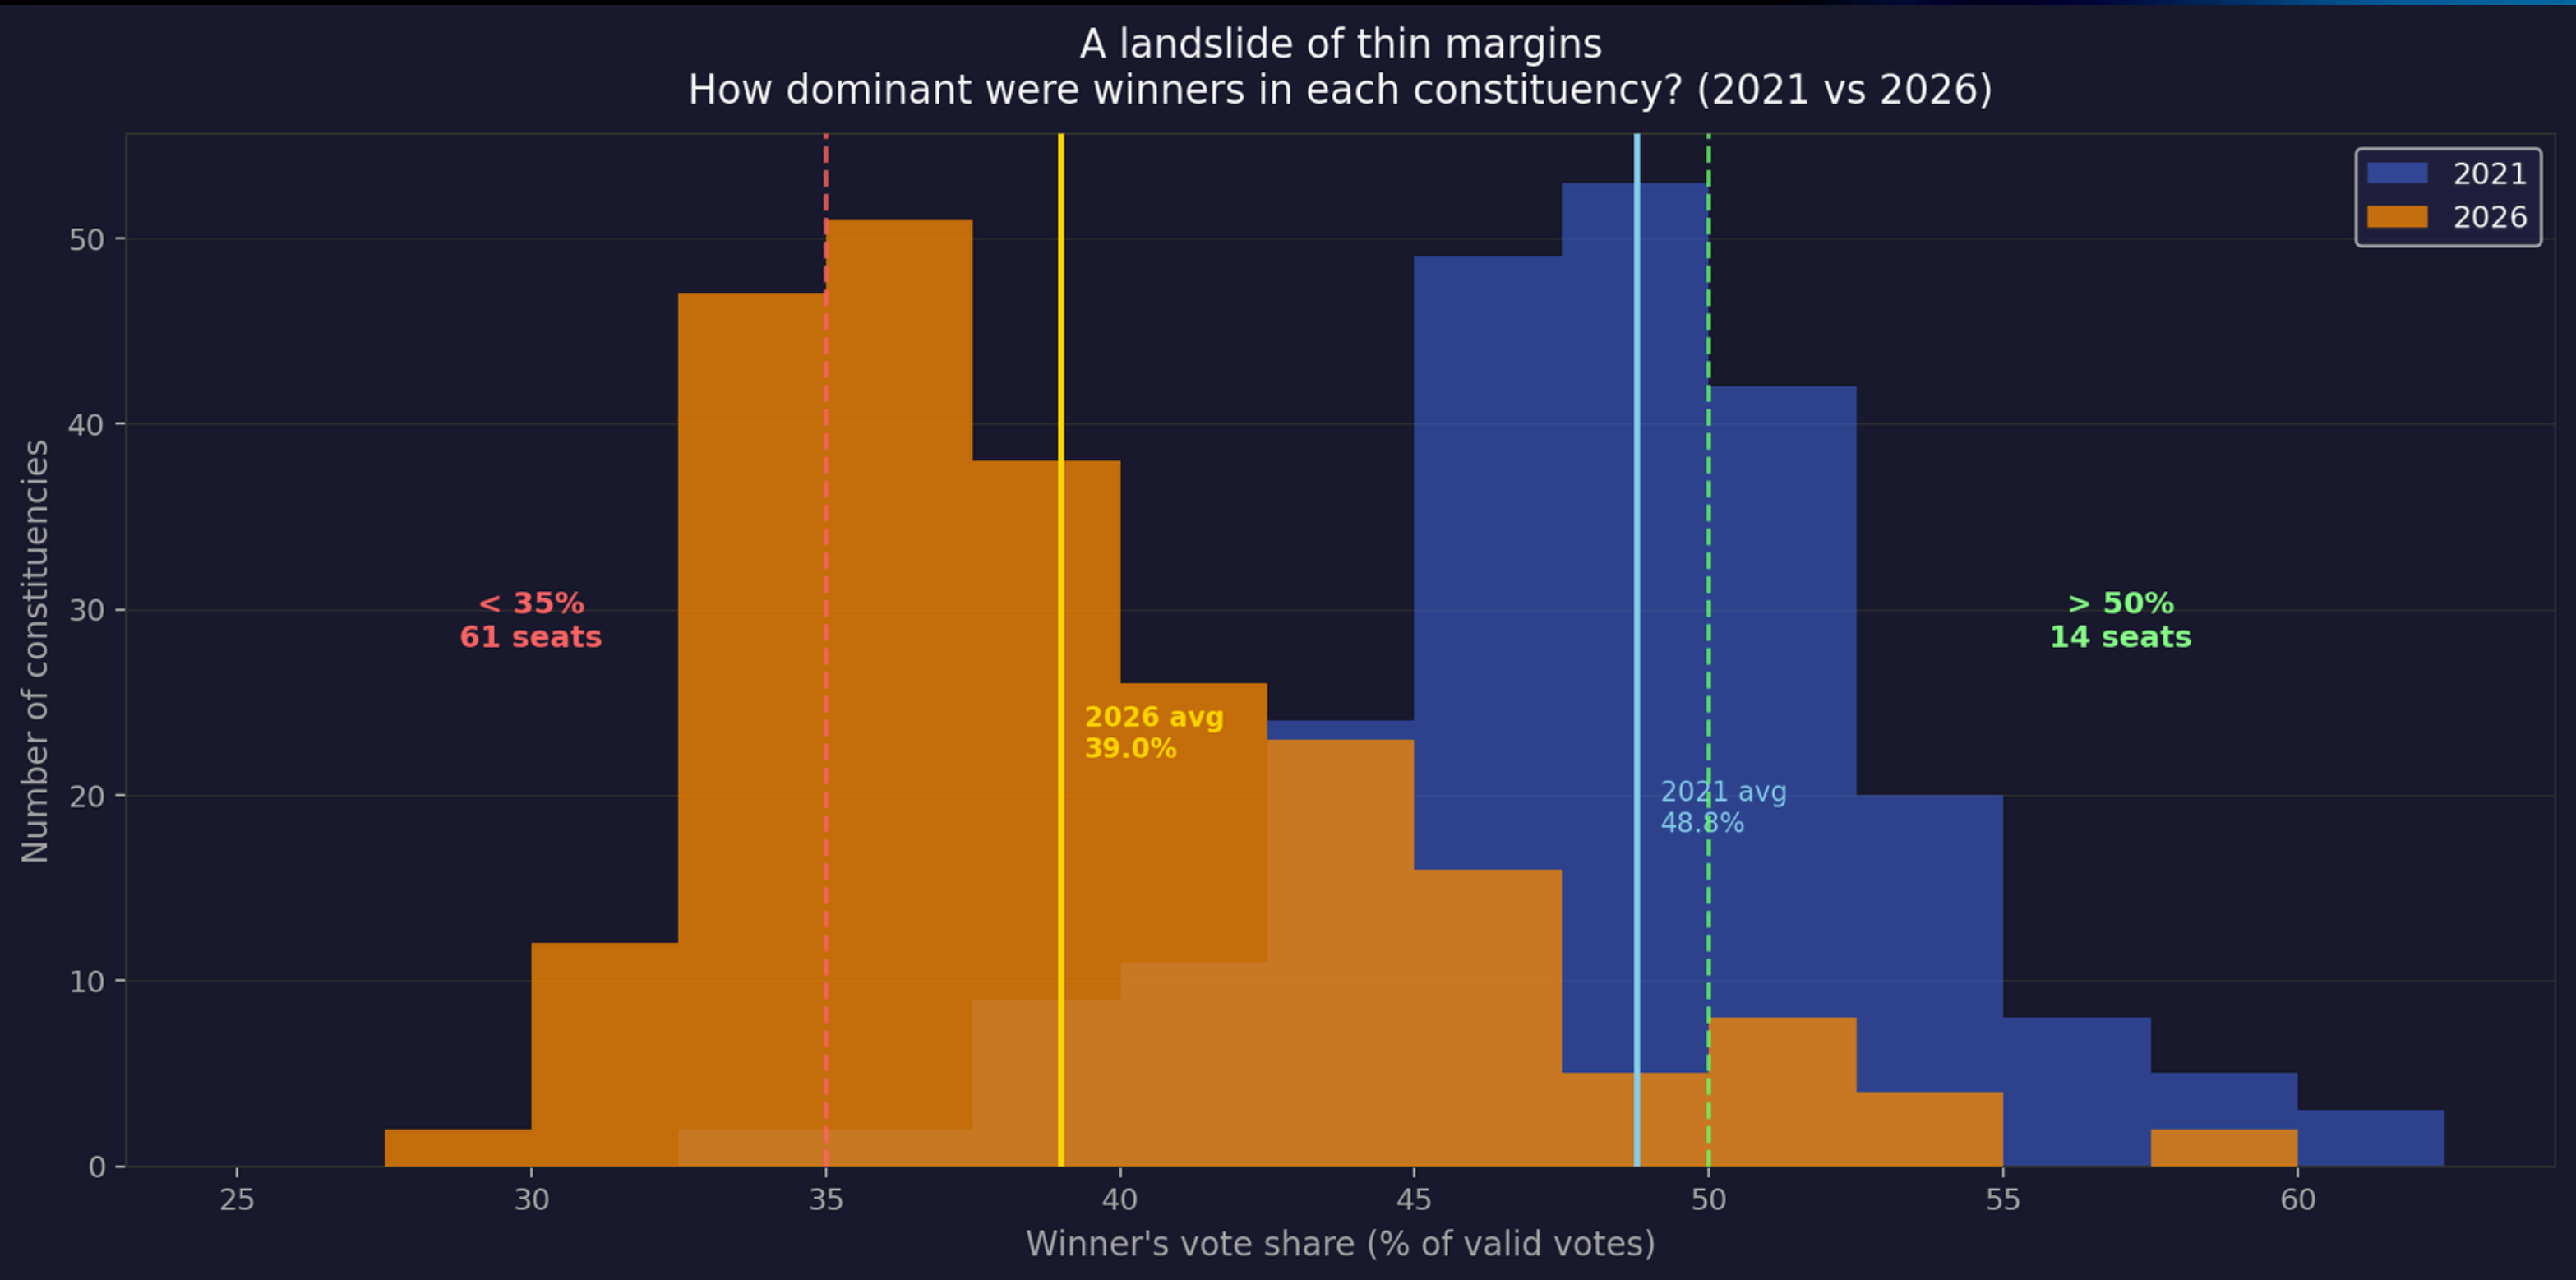

TVK alone flipped 107 seats - from DMK, AIADMK, INC and others

Act 2: TVK Pulled From Both Sides

DMK lost 14 pts · AIADMK lost 12 pts · TVK captured 35.1% state-wide"

Act 3: A Landslide of Thin Margins

61 seats won with under 35% of votes · Average win was just 39%

How to Build the Show

01

0–20 min: Act 1 - The Map Flipped. Open with the flip chart. 163 seats. Who lost what.

02

20–40 min: Act 2 - Follow the Votes. Where did TVK come from? Regional breakdown.

03

40–60 min: Act 3 - Thin Margins. The paradox of a landslide won on under 39% per seat.

All three acts use only ECI data. No opinion. No commentary. Just numbers.

Data Sources & Disclaimer
